| <b>Name of associated consultants / subcontractors, if</b>  | <b>DEKONTA's staff and functions performed:</b><br><br>Ondřej Urban-Project Manager<br>Jan Vanek - Project Supervisor |   |
| <b>Narrative description of the Project:</b><br>Goal of the project is to recultivate former sludge lagoon site at Moravany (Slovakia) that was used in the past as dump site of drilling sludges contaminated by oil hydrocarbons by Nafta Co. Purpose of the recultivation was to close the lagoon site in line with Slovak/EU standards. Dekonta implemented first phase of recultivation that included sludge solidification/stabilization. |   |   |
| <b>Type of the services provided by DEKONTA:</b><br>-Sludge solidification & stabilisation  |   |   |
